

No, your high school will forward only your high school transcript. When you enroll in an Advanced Credit course, you are assigned a UMSL student number, and a University transcript is established. Once your final grades are submitted by your high school teacher to the University and are posted to your student record, you must request an official University transcript be sent to your desired university. As an Advanced Credit student, the final grades you earn for your courses becomes a part of your permanent University record and appear on your transcript. (For information on how to request a transcript, see the [ACP Student Guide](#) .)

Go the [Advanced Credit Program](#) Web site for details.
